SEIZURE LOG

MONTH

PET'S NAME

VET & PHONE

DAILY MEDICATION name, dose and times as prescribed

RESCUE MEDICATION if prescribed

EMERGENCY CLINIC & PHONE

WHEN MY VET WANTS A CALL, OR AN EMERGENCY VISIT

DATE	STARTED time	LASTED min : sec	WHAT YOU SAW stiff or paddling legs, aware or not, drooling, lost bladder or bowel control	JUST BEFORE sleeping, eating, excited, anything unusual	RECOVERY time until normal, and how your pet acted	RESCUE MED if given: name and time

One line per seizure, even when several come close together. Time it on your phone if you can: seizures often feel longer than they are, and a short video shows your vet what you saw.

A record kept by the owner, not veterinary advice. Follow your vet's instructions for every medication and dose.
